A NOTE FROM ABACUS / VEDIC MATH TEAM

Dear Parents,

By participating in the Abacus / Vedic Math competition, students Learn:

- Time concept; To focus and concentrate on the time slot allotted; learn the challenges involved in trying to win/participate in a competitive situation and from other students / peer group

General Information: FOR ABACUS:

Students will receive a model paper for the competition. The time limit is 8 minutes only. Number of correct sums done in 8 minutes will decide the winner. Addition/subtraction will carry 2 marks. Multiplication/division will carry 1 mark for each sum.

Every class all the students will write one 8 minute practice paper for their respective level/term

Weekly practice worksheets will be given to the students registered for the competition

Registered students should practice these worksheets every day for 8 minutes

Bring the sheets to the next class and the teachers will guide and correct the students in the class

FOR VEDIC MATH: Time limit is 15 minutes. Each sum carries different marks and it will be mentioned in the practice sheets.

Online support is available only for the registered students on TUESDAY, Thursday & Saturday 5 to 6 pm. Message 9886564626 with student name to get the link details.

Parents role:

Practice 3 or 4 times every day with 8 minutes time slot for each session.

Correct and send the paper to the class with difficult / wrong sums marked.

Instruct the student to read 2 numbers at a time instead of one number in the sum.

Ask the student to count the number of sums done in each 8 minute practice session.

Ask the student to select the row easier to complete first, second, and so on.

Each paper will start with easy sums and proceed to increasing difficulty. Try to solve all the sums before proceeding to the next worksheet.

Teacher's role:

We are providing a platform for your child to face the challenges involved in participating a competition.

All the challenges will be addressed in the class by the abacus / Vedic math teachers.

Training material will be provided for all the students participating in the competition

Each student will compete with their peer group only. They cannot complete the paper in the given time. The number of correct answers will determine the result

Different categories:

Abacus: KG level (only for LKG & UKG STUDENTS), First level to Eighth level

Vedic Math : Level 1 & 2, Level 3 & 4

Prizes: Champion, Runner 1, Runner 2, Runner 3 and Consolation for each category

Certificates, medals and snacks for all the students will be given
